

The Effective Remedy

WASHINGTON, IOWA, April 4, 1905.

I was troubled for over a year with so scanty a flow that it was virtually suppression. A heavy cold superinduced this condition and nothing I could do seemed to help me. The only effective remedy I ever found was Wine of Cardui. Within two weeks I felt the good effects of the medicine and after I had used 18 bottles in all I was as healthy and regular as any woman could wish to be.

My sister used it while expecting to become a mother and found that it made childbirth comparatively easy and after the child was born she found that it helped her to regain her strength.

GROSS FRAUDS IN NATURALIZATION

SHAKEUP EXPECTED WHEN SPECIAL COMMISSION MAKES REPORT TO CONGRESS.

By Associated Press.

Washington, March 10.—The special commission created by the president to consider the subject of naturalization will, it is expected, be prepared to submit to congress at the next regular session a full report upon this important subject. The president has shown a lively interest in the matter not only having before him reports of federal officers containing many specific instances of gross fraud and error in connection with the application of the present naturalization laws but having himself, while connected with the municipal government of New York city, noted many of these evils. Besides internal frauds, the insufficiency of the existing naturalization laws has involved the state department in endless correspondence with European governments growing out of cases of doubtful naturalization.

Gallard Hunt, the present chief of the passport bureau of the state department, who will be the chairman of the new commission, has given much study to this subject, and his report thereon has been laid before congress. It reveals an amazing number of cases of false, fraudulent, improper and improvident naturalizations and a wholesale forgery and sale of spurious certificates, particularly in the case of those issued to Italians and Hungarians. Many cases have been reported to the state department where both federal and state courts have issued certificates to persons under twenty-one years of age and to those who had not resided at least five years in the United States and the most primitive ignorance is occasionally shown by the judges of local courts on this subject.

PETITION IN BANKRUPTCY.

An Orianian a Creditor in a Case at Springfield, Ill.

Springfield, Ill., March 10.—Tere A. Clarke, of Quincy, Ill., who styles himself a promoter, has filed a petition in bankruptcy in the office of the clerk of the United States district court. He scheduled his liabilities at \$354,500, and his assets at \$500, consisting of a roller desk and cabinet. Clarke, in his petition, states that he was the promoter in 1896 of the Hamilton Creek Ore Company, with principal places of business in Russellville, Colbert county, Alabama, and Tecumseh, Franklin county, Alabama. The company failed through lack of water and other reasons. Clarke's principal creditors are his partners in the Hamilton Creek Ore Company, and the amount he owes them is \$25,000 each. They are T. Stewart White and Anton Haden Poyle, of Grand Rapids, Mich., and James D. Lacy, of New Orleans. E. P. Reynolds, Jr., of Wymore, Neb., is a creditor to the amount of \$10,000.

DANDRUFF CAUSED BY A GERM, AND CAUSES BALDNESS.

A New Discovery That Kills the Germ and Prevents Baldness

Pretty nearly all the hair preparations for dandruff have some merit in allaying the itching of the scalp, and in being a fairly good dressing for the hair, but there is only one that recognizes what causes dandruff, falling hair, and baldness, and that destroys the cause, a little germ—and that is Newbro's Herpicide. This germ eats its way into the scalp, it digs up the scalp into little white scales. Unless it is destroyed there's no permanent stopping of falling hair and cure of dandruff and baldness. Newbro's Herpicide kills the germ. "Destroy the cause, you remove the effect." Sold by leading druggists. For sale by W. A. D'Alemberte, druggist and apothecary, 121 S. Palafox. Send 10 cents in stamps for sample to The Herpicide Company, Detroit, Mich.

POINTED PARAGRAPHS.

The easier people make money the easier they want to make it.

Among the many mysteries of childhood is why grown people cry when they are glad.

There are some people who think they have discharged their full duty to you by praying for you.

What do you use most during the day? Do you use the little white lie as much as you use your shoes?

When a man makes one mistake he usually follows it up with three or four before he recovers his balance.

Don't be conceited; get any map of the United States, and do you find any mark on it to show that you are on earth?

Every one admits that rich people are not happier than the poor, or as happy, yet every one is striving to become one of the miserable rich.—Aitchison Globe.

Two Ways of Doing Business.

I have seen in London only one office where there is any real enthusiasm. And the employees seldom have any interest in the business beyond drawing their salaries. In most of the factories, and even in the offices, they are taught a certain round of duties, and they are allowed to do nothing else. They seldom suggest improvements for fear of losing their places, where in America they'd soon lose their places if they didn't make suggestions. Here it's the firm in its private offices and everybody else doing as little as possible and never stepping out of the rut they're put in, and there it's everybody working together, coasts off, and the head of the concern glad to listen to the office boy and to do as he says if it means results.—Vanity Fair.

Ancient Eggs in China.

A German epicure comes to the rescue of the Chinese in regard to their alleged habit of eating rotten eggs. The eggs, he says, are simply preserved in lime until they get a consistency like that of hard butter and they taste somewhat like lobster. He declares them one of the choicest delicacies he has ever eaten. He thinks there are no better cooks in the world than the Chinese. When he went to live among them his friends predicted he would starve, but he had a good time and gained weight—more than he wanted to.

SAM JONES ON FLORIDA

SAYS YANKEE DOODLE AND GOOD ROADS ARE MAIN TOPICS OF CONSIDERATION.

Sam Jones was recently at Gainesville, where he delivered two lectures to large audiences at the Chautauqua, says the Jacksonville Times-Union. Since returning to his home at Cartersville, Ga., he writes of his trip in the Atlanta Journal as follows:

"I have just returned from a hurried trip through south Georgia, and as far south as Gainesville, Fla. I spent one day at Blakeley and one day at Fort Gaines. It is a thing of joy to note the glow and growth upon all sections of south Georgia. The lumber interest was never more profitable or prosperous. This commodity alone has emptied millions into south Georgia. I find the commercial interest doing well down there. The farmers are holding on to their cotton with hope and confidence that good prices will come later along. I was two days at Gainesville, Fla., Chautauqua. Gainesville is having a phenomenal growth at this time. The Chautauqua was largely attended. That institution marks an era and is looked forward to annually with great expectations. Gainesville rallies to her Bible conference and Chautauqua season with the money and with the attendance, and they are dating the beginning of this new era of things in Gainesville, to the building of their large auditorium right in the heart of the city, and the inauguration of the Bible conference every year, which is followed by the Chautauqua. The saloons have been driven out, the moral atmosphere purified and Gainesville realizes she can grow in leaps and bounds without the traffic of liquor in her midst. Gainesville has one of the most competent mayors I have ever met. He is a gentleman and a Christian, and has the push and pride and public spirit so essential to a growing city. They are now discussing the paving of the streets. The national government has placed its machinery and its experts at the command of the county, and they are now building one mile of good road. There are clay pits in Florida, which furnish a magnificent material. It is a kind of mixture of clay and sand, and when mixed in right proportions, it is very much like the chert roads which have been built around Atlanta. The streets of the city, and the roads of the rural districts will not only determine values, but also determine the development and up-to-date citizenship, wherever you find them. I wish for nothing so much as that Georgia shall get waked up on the good roads question. In north Georgia, our roads have been almost impassable this winter. We have object lessons in mud, but they don't seem to teach us. The truth of the business is, the average fellow is satisfied with what he has got until he sees something better. As I have said before, it would be a good idea to get all the farmers in Georgia a ticket and let them travel a while.

"Florida is full of Yankee Doodle, and Yankee Doodle hasn't needed a fan down in Florida this winter. The thermometer at Gainesville has been down to 12 degrees above zero, and the vegetable crop of Florida has been badly damaged and fearfully delayed by the cold of the winter. Florida has gotten it about as tough in proportion as Georgia and Tennessee, and the states farther north. That sort of weather is not only no respecter of persons, but it is no respecter of latitude, but the people seem to be in good heart and hope. I spent two days most pleasantly at Gainesville."

"Tired in the Morning"

This condition is unnatural. A healthy person gets up in the morning well rested, feeling fine and ready for the day's work.

If you get up in the morning tired, it simply means that your nerves have not rested and their restlessness has not allowed you to rest in the healthy, normal way.

You must feed some new power to your nerves.

That is just what Paine's Celery Compound does. It feeds new power to the nerves and builds them back to healthy strength.

It makes new Nerve Force.

It makes new vitality and makes life worth living.

That is just why for the past 18 years Paine's Celery Compound has been the most universally used tonic in the world.

A. H. MERRITT'S EXPERIENCE WILL PROVE VITALLY INTERESTING TO THOUSANDS.

"Two years ago I had a nervous disorder that completely prostrated me. I couldn't sleep, and would lay and toss about all night, arising in the morning more tired than ever, head heavy, eyes dull and every bone and muscle aching. I tried to get along without calling in a doctor, but was finally driven to it. He treated me for some time, but with no perceptible improvement in my health. Some one recommended your Paine's Celery Compound. The change it effected in my system was noticeable almost instantly. I gradually took on flesh. The 'all-gone' feeling left me. In less than six weeks I was fully recovered from what looked to me like an everlasting sickness. I feel actually grateful to you, as my health to-day is a testimonial of what your medicine can do. Yours very truly,"—A. H. Merritt, 32 Music Hall Building, Boston, Mass., Feb. 12, 1904. Bandmaster First Regiment Band, Heavy Artillery, M. V. M.

Try Paine's Celery Compound to-day.

Its effect is almost instantaneous—the nourishment and vigor given to the nerve system by Paine's Celery Compound is felt at once.

The patient feels this at once and gains confidence by it.
